## DON'T LET INSURANCE COMPANIES WIN!

With the workers' compensation changes implemented by Gov. Schwarzenegger, the temptation may exist to improperly fail to report on-the-job injuries and use other health coverage. Don't fall for their trap! Workers' compensation insurance is still the best quality coverage available in California. With the potential for lifetime medical awards which remain in place even after the employment ends, as well as insurance payment at 100% of the cost (no co-pays, deductibles, etc.), using other health insurance for work-related injuries is not just against the law, it against common sense!
